## BOOZER WILL SPEAK ON TUESDAY EVENING

The first of the season's educational meetings to be given under the auspices of the Parent-Teacher association will be held next Tuesday evening at 8 o'clock in the Chamber of Commerce rooms. Rev. L. Myron Booser will speak on "Educational Hopes, Fears and Obligations." The aim of this meeting is to instill in the minds of parents the need of educating the children of the day along patriotic lines, getting into their youthful minds an appreciation of the fact that the government under which they live brings to them blessings for which they should show a due gratitude.

### MAGIC GAS

Read what one man who has thoroughly tested Magic Gas has to say about it. Several others who are using it are getting the same results.

Mr. Chas. Mee, Applegate, Ore:  
Dear Sir: I have used your magic gas for two months now constantly and have secured splendid results. I have increased mileage per gallon a little more than five miles, entirely dispensed with foul plugs and in many ways my machine is rendering me greater efficiency. I feel that the investment is a profitable one. Yours truly, A. B. Cornell.  
You can save money too by using Magic Gas: \$2 per quart, equal in value to 50 gallons gasoline. For sale by Chas. Mee, Applegate, and M. Clements, the Rexall Store. 07

## Beautiful 1918 Maxwell Now On Exhibition

Without altering the world champion motor, the famous perfected clutch and transmission or the mighty axles, the Maxwell builders have produced a new wonder car, far superior in construction and in appearance to anything yet turned out by the Maxwell factories—we have this new and beautiful car—come and see it.

The car is larger and roomier, for one thing—the wheelbase has been increased six inches. It is also a stronger and more rigid machine for the road.

The frame is now six inches, instead of three inches deep.

And the body rests directly on this powerful frame, instead of on brackets extending from the sides, as in the past.

Do you know what that means?

It means this: The firmness with which the wheels grip the road and the steadiness of the car at high speed give you a sense of security such as you have been able to enjoy before only in cars shackled with a battery of shock absorbers.

### This New Car is 50 Pounds Lighter

There's a marvel of engineering for you, friends! The car is made bigger and stronger—and yet actually lighter.

This means greater ease and comfort on the road. More than that—it means greater economy.

Touring Car \$745; Roadster \$745; Coupe \$1095; Berlin \$1095; Sedan \$1095  
All prices f. o. b. Detroit

BENJ. M. COLLINS, Distributor

And the Maxwell before was the most economical 5-passenger car in the world. Compensating underslung rear springs—the last word in spring suspension—mark this wonderful Maxwell of 1918. They mean greater comfort—greater economy, by lessening wear and tear on the car.

### Maxwell Now Has the Style of the Costliest Cars

The new Maxwell is a car of great beauty. It has a sloped windshield and rakish lines never before produced in any car costing less than \$1200.

Its good looks now equal its proved mechanical efficiency.

The new upholstery is richer and gives a new comfort.

Inside and out the new 1918 Maxwell is a polished car.

We're proud to sell it. You'll be proud to own one.
